General Alexander M. Haig, Jr., USA  
SACEUR/CINCEUR

Dear Al,

Attached is a recently issued report entitled "Estimated Soviet Defense Spending in Rubles, 1970-1975" which will be of considerable interest to you. This report has been briefed to senior policy levels within the Executive Branch and to appropriate Congressional committees. It reflects a sharp rise in the Agency's estimate of the Soviet ruble expenditures, though there is not any change in the absolute size of their forces or in estimates of Soviet defense costs expressed in dollar terms.

If you so desire, I could easily lay on a session for you with the principal analysts who put this paper together and developed its conclusions. I am also pouching a copy of [REDACTED] so that one will be available for you in Mons upon your return.
